

February 2024 Newsletter

Happy 2024, Friends!

Somehow, it's already mid-February in the new year, but your Planetary Sciences Section leadership is just getting started. We have some exciting updates to share!

First, it's nominations season again—and I'm not talking about the Oscars. Nominations are open for AGU Union-level awards, Fellows, and Section-level awards. You can find information on all three categories below, together with their submission deadline:

- [Union Medals, Awards, and Prizes](#): **1 March**
- [Union Fellows](#): **27 March**
- [Planetary Sciences Section-level Awards](#): **27 March**

A big change this year is that AGU has overhauled its nominations process for Union-level medals, awards and prizes; those changes include a move to a two-step process, anonymizing submissions in the first step and allowing self nominations. You can find details of these changes, together with FAQs, here:

<https://www.agu.org/honors/umap-updates>

In parallel with AGU updating its nominations procedure, the Planetary Sciences Section has also changed how it will approach award nominations going forward. We have folded the role of canvassing for Union- and Section-level awards (including Fellows) into the responsibility of the Executive Committee, aided by (ex officio canvassing member) AGU Fellow Phil Christensen. If you're planning to nominate a colleague for a Union- or Planetary Sciences Section-level award, feel free to reach out to us—we'll be happy to help!

As a reminder, the members of the PS Section Executive Committee are listed at the end of this message, together with their email addresses. I'll also take this opportunity to update you on the membership of our other Section Committees:

Awards Committee (for evaluating but not soliciting nominations):

- Nicole Zellner
- Wendy Calvin
- Julie Castillo
- Michael Mischna
- Bill McKinnon

AGU Annual Meeting Program Committee:

- Sarah Horst
- Wes Patterson
- Catherine Neish

Each of these committees requires a considerable amount of effort, and I am very grateful to everyone listed here for their volunteer service. My thanks, too, to Amanda Hendrix, who has rotated off the Annual Meeting Program Committee as she takes on her new role as the JGR: Planets Editor-in-Chief.

Last but not least, we are finally (!) in the process of updating the AGU Planetary sciences Section website. We'll put these newsletter notices on the front page, and will be revising and refreshing the other tabs on the site, starting with the Committees page.

As always, if you have questions, concerns or comments, don't hesitate to reach out at paul.byrne@wustl.edu. And if you have any deadlines, events or announcements you would like to share, please email [Sarah Hörst](#).

Paul

Paul Byrne, President | paul.byrne@wustl.edu

Wendy Calvin, President-Elect | wcalvin@unr.edu

Sarah Hörst, Secretary | sarah.horst@jhu.edu

Emma Dahl, Early Career representative | emma.k.dahl@jpl.nasa.gov

An Li, Student representative | anli7@uw.edu

Michael Mischna, Past President | michael.a.mischna@jpl.nasa.gov

(1) Exoplanets In Our Backyard III

We are happy to announce the Exoplanets in our Backyard III workshop scheduled for 13–15 November, 2024 at the Muhammad Ali Center in Louisville, KY USA. The workshop format will be in-person only.

Exoplanets in Our Backyard focuses on the collaborative exploration of exoplanets, uniting researchers from various scientific disciplines to share knowledge and expertise, particularly in the detection and characterization of exoplanet atmospheres. Emphasizing discussion and cross-disciplinary research, this workshop aims to inspire and educate participants of all experience levels in the collective effort to understand distant worlds and their formation processes.

To be added to the mailing list to receive additional information about this conference, submit an [indication of interest](#).

You can find more information on the [meeting website](#).

SOC Members: Thomas Fauchez (Co-Chair), Erika Kohler (Co-Chair), Raphael Attié, Elsa Ducrot, Sarah Moran, Stephanie Olson, Eddie Schwieterman

LOC Members: Timothy Dowling (Chair), Gerard Williger, Benne Holwerda

(5) Fieldwork Culture Survey

Join us in shaping the fieldwork culture in the Earth and space sciences! Please take 5-15 minutes to share your experiences conducting fieldwork. Your insights will help shape a practical strategy to make field environments more inclusive and supportive for everyone involved. [Submit your survey by 1 March.](#)
